## About

When you need speech therapy, you don't have to go far for outstanding care - our licensed speech therapist is right here at Abbeville Area Rehab & Wellness. From pediatric to adult to special needs cases, we've got you covered.

## What Speech Therapists Do

Speech therapists (sometimes called speech-language pathologists) assess, diagnose, treat and help to prevent communication and swallowing disorders in patients. Speech, language, and swallowing disorders result from a variety of causes, such as a stroke, brain injury, hearing loss, developmental delay, a cleft palate, cerebral palsy, or emotional problems.

## Our Services
